## Performance of the Institution in one area distinctive to its Vision, Priority and Thrust

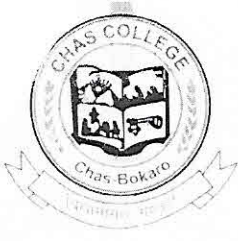

Chas College Chas is situated in the rural area of Bokaro district of Jharkhand. This area has heritage of tribal culture and amalgamation of regional languages; Bangala, Khortha, Kurmali and Hindi. The college is situated on the border of Jharkhand and West Bengal on NH-32.

The College was established in the year 1976 with the vision to provide inclusive education for inculcating human values, professionalism and scientific instillation to all sections of students including scheduled tribes, scheduled castes, other backward communities, religious minorities and displaced with special focus to girl students. Guided by the vision and mission, the college support the academic and socio-economic development of the rural students specially girls and students from tribal community, the less privileged group of the society. The college runs different course in Science, Arts and Commerce and make students equipped to earn livelihood in the most respected way.

### **Distinctiveness of the College as per its Vision:**

A majority of our students belong to rural families of socially marginalized groups of scheduled tribes, scheduled castes and other backward communities of which almost 50% are girls. Many of them are first generation learners. They belong to illiterate families and suffer from social and economical disorientation. Many of them hesitate to talk to teachers and staff to express their views and problems even in their local language. It is very challenging to the college to teach such group of students and to make them competent to lead a respectable life in the society.

Chas College has highly qualified teachers and practical oriented supporting staff. We have well equipped laboratories and support system to achieve vision of the college.

Until the establishment of our college in 1976, facility of Higher Education was not available in this area. Girl education was almost nil. People were hesitant to send girls to the college for education due to various reasons. After establishment of Chas College education started in this area and many first generation graduates passed out from our college. At present the strength of girl students in our college is almost 50% indicating empowerment of the women in the area.

We help students to solve their problems for which teachers and supporting staff try to understand their problem in local languages and support them in coming out of the problem. We help them to correspond with government authorities for scholarship. The College provides students concession in fee, installment facility in fees, library facility and many other support systems. Tuition fee of girl students is totally free. With encouragement and support these students gradually develop into confident and responsible citizens of India.

We also make our students socially responsible for which we have two units of NSS that organize many social service activities round the year. Through these activities students learn to serve the society. Our teachers help students in improving their personality and to make them prepared to face global challenges.
